Our Target Markets

• Indoor Residential and Commercial lighting
• Outdoor street and area lighting
• Office lighting
• Warehouses, manufacturing facilities, and Large retail store application
• Parking garages
• Architectural lighting
• Display / Signage
• Stage Lighting (entertainment, concert)
**About ERP**

ERP designs and manufactures energy-efficient LED drivers/power supplies for a wide range of lighting applications: from residential to commercial, industrial, outdoor, office buildings, architectural and stage lighting. Small, yet powerful, ERP products deliver an industry-leading combination of compact size, extensive dimmer compatibility, and high efficiency at competitive cost. Headquartered in Moorpark, CA, ERP owns and operates its own ISO 9001 certified manufacturing facility to ensure quality of design, sourcing, production and testing.

- **Industry leader in high-efficiency (high-power-saving) & high-density (small footprint) LED drivers/power supplies**

- **Product offerings include standard and custom solutions for LED Lighting**

- **U.S.A. Headquarters in Moorpark, California, with sales/marketing, R&D, and technical support to serve the North-American market**

- **China Operations Center in Zhuhai include document center, QA, R&D, manufacturing, and sales / technical support to serve China and Asia**

**Our Presence**
ERP Manufacturing

ERP products are manufactured in our wholly owned manufacturing facility in Zhuhai, China. The factory is configured with high-speed production lines for LED drivers and high-density power supplies, as well as state of the art burn-in chambers and automated test equipment. Strategic manufacturing partners provide significant upside capabilities. ERP products go through 100% burn-in to eliminate “infant mortality” failures. ISO 9001:2008 certified, with regular audits by safety agencies.

ERP Quality

Quality Management Systems (QMS)

- Design Qualification Assurance
  - Reliability testing
  - 4-stage development process
  - Component qualification (Derating, MTBF, Thermal testing)
  - Production auditing

- Product Qualification Assurance
  - Failure analysis
  - Customer returns

Supplier Quality Assurance / Incoming Quality Control
- Supplier management
- Material control

Standard Certifications

ERP products are designed and manufactured to comply with worldwide international IEC standards for lighting applications, and carry certifications by safety agencies such as UL, CSA and Nemko.

ERP products also comply with EMC regulations from Europe, and FCC/ICES in North America.
Best-In-Class Dimming

Forward-phase (TRIAC or leading-edge) and reverse-phase (ELV or trailing-edge)

Light Output (% of max output)

0-10V Signal Voltage

Tri-Mode Dimming™

The ESS, ESP, ESM, EVM, and EVB series of LED drivers are compatible with Tri-Mode Dimming™ from 6 W up to 160 W, i.e. they are compatible with forward-phase (TRIAC or leading-edge), reverse-phase (ELV or trailing-edge) and 0-10 V dimmers.

Broad Dimming Compatibility

ERP LED drivers deliver an extensive dimmer compatibility. For each LED driver, a dimming compatibility matrix is available upon request, showing how the LED driver scores against a long list of dimmers according to several criteria such as: flicker, shimmer, smooth dimming, no flash at startup, etc.

Power Density

Highest Power Density in the industry

The new patent-pending power electronics design delivers more than double the density of the previous generation ERP platform, while delivering 5 times the power density of current industry competitors.
## LED Cross-Reference

ERP has developed an extensive cross-reference for 12 different LED manufacturers. This cross-reference can be directly accessed from the ERP website at [www.erp-power.com](http://www.erp-power.com). On the homepage, using the pull-down menus, select the LED manufacturer and then the LED. You may also select your desired drive current. The cross-reference tool will return a list of driver(s) that are the most relevant for your LED selection. You can also access the cross-reference by clicking on **LED GUIDE** at the top of the homepage. The LED guide lists the 12 LED manufacturers whose LEDs have been cross referenced to some of our LED drivers.

ERP Constant Current and Constant Voltage LED Driver Portfolios

Below are two graphs that illustrate our portfolio of constant current and constant voltage LED drivers. ERP LED drivers are targeted at architectural, commercial and industrial applications requiring 10 W to 260 W of power with dimming, programming and connectivity to the Internet of Lights. The color coded drivers are represented in this brochure.

Indoor/Outdoor, Constant Current LED Drivers

Output Power (W)

Output Power (W)
PSB SERIES 30 W - 50 W
Programmable, Constant Current, Class 2 / Class II LED Drivers with Tri-Mode Dimming™ (TRIAC, ELV and 0-10 V)

Features
- Non-linear 0-10 V dimming profile with dim-to-off pre-loaded by default (10 V to 9.0 V = 100%, 1.5 V to 0.7 V = 1%, < 0.7 V = dim-to-off)
- UL Class P
- Class 2 output / Class II power supply
- Lifetime: 50,000 hours @ Tc = 75°C
- 90°C maximum case hot spot temperature
- IP20-rated case with silicone-based potting
- No TRIAC/ELV dimming for PSBXXE models, only 0-10 V dimming
- Surge protection:
  - IEC61000-4-5: 2 kV line to line / 2 kV line to earth
  - 2.5 kV ring wave: ANSI/IEEE c62.41.1-2002 & c62.41.2-2002 category A
- Complies with ENERGY STAR®, DLC (DesignLight Consortium®) and CA Title 24 technical requirements

Typical Application Diagram

Features
- Non-linear 0-10 V dimming profile with dim-to-off pre-loaded by default (10 V to 9.0 V = 100%, 1.5 V to 0.7 V = 1%, < 0.7 V = dim-to-off)
- UL Class P
- Class 2 output / Class II power supply
- Lifetime: 50,000 hours @ Tc = 75°C
- 90°C maximum case hot spot temperature
- IP20-rated case with silicone-based potting
- No TRIAC/ELV dimming for PSBXXE models, only 0-10 V dimming
- Surge protection:
  - IEC61000-4-5: 2 kV line to line / 2 kV line to earth
  - 2.5 kV ring wave: ANSI/IEEE c62.41.1-2002 & c62.41.2-2002 category A
- Complies with ENERGY STAR®, DLC (DesignLight Consortium®) and CA Title 24 technical requirements

Programming
- Current: 100% to 50% in each voltage range
- Data log read: SKU, S/N, lot code, hours of operation, FW rev., power cycles
- Fully programmable and selectable 0-10 V dimming profiles: Non-linear with dim-to-off, Logarithmic, Non-Linear without dim-to-off

Typical Applications
- Commercial lighting
- Architectural lighting
- Residential lighting
- Indoor Lighting

**High Performance, Programmable, Constant Current, Class 2 / Class II LED Drivers with Tri-Mode Dimming™ (TRIAC, ELV and 0-10 V)**

**Features**

- Ripple < 10% @ 20% & 100% load for TRIAC, ELV, and 0-10 V
- Turn-on at 1% Iout for TRIAC, ELV, and 0-10 V dimming
- Programmable conduction angles with turn-on & turn-off for TRIAC & ELV
- Programmable 0-10 V dimming profile
- Non-linear 0-10 V dimming profile with dim-to-off pre-loaded by default (10 V to 9.0 V = 100%, 1.5 V to 0.7 V = 1%, < 0.7 V = dim-to-off)
- UL Class P
- Class 2 output / Class II power supply
- Lifetime: 50,000 hours @ Tc ≤ 75°C
- 90°C maximum case hot spot temperature
- IP20-rated case with silicone-based potting
- Surge protection:
  - IEC61000-4-5: 2 kV line to line / 2 kV line to earth
  - 2.5 kV ring wave: ANSI/IEEE c62.41.1-2002 & c62.41.2-2002 category A
- Complies with ENERGY STAR®, DLC (DesignLight Consortium®) and CA Title 24 technical requirements

**Typical Application Diagram**

**Nominal Input Voltage** | **Max. Output Power** | **Efficiency** | **Max. Case Temperature** | **THD** | **Power Factor** | **Dimming Method** | **Dimming Range** | **Startup Time**
--- | --- | --- | --- | --- | --- | --- | --- | ---
120 & 277 Vac | 50 W | up to 90% typical | 90°C (measured at the hot spot) | < 20% | > 0.9 | Programmable Forward-Phase, Reverse-Phase, & 0-10 V | 1-100% (% of Iout) | 300 ms typical

**Typical Applications**

- Commercial lighting
- Architectural lighting
- Residential lighting
- Indoor Lighting

**Programming**

- Current: 100% to 50% in each voltage range
- Data log read: SKU, S/N, lot code, hours of operation, FW rev., power cycles
- Fully programmable and selectable 0-10 V dimming profiles: Non-linear with dim-to-off, Logarithmic, Non-Linear without dim-to-off
- Programmable conduction angles with turn-on & turn-off for TRIAC & ELV

For additional options of output current and output voltage, contact your sales representative or send an email to: SaveEnergy@ERP-Power.com
**Features**

- Compatible with TRIAC (forward-phase or leading-edge), ELV (reverse-phase or trailing-edge) and 0-10 V dimmers
- ESSxxxx models: only 0-10 V dimming at 277 Vac
- ESSxxxxE models: no dimming
- 90°C maximum case hot spot temperature
- Class 2 power supply
- Lifetime: 50,000 hours at 70°C case hot spot temperature (some models have higher lifetime. Check lifetime curves in spec sheet)
- IP64-rated (IP66 for ESST) case with silicone-based potting
- Protections: output open load, over-current and short-circuit (hiccups), and over-temperature with auto recovery
- Conducted and radiated EMI: Compliant with FCC CFR Title 47 Part 15 Class B (120 Vac) and Class A (277 Vac), and EN55015 (CISPR 15) at 220, 230, and 240 Vac
- Complies with ENERGY STAR®, DLC (DesignLight Consortium®) and CA Title 24 technical requirements

</tr>
</tbody>
</table>

Typical Application Diagram

Features

- Compatible with TRIAC (forward-phase or leading-edge), ELV (reverse-phase or trailing-edge) and 0-10 V dimmers
- Only 0-10 V dimming at 277 Vac
- 90°C maximum case temperature
- Class 2 power supply
- Lifetime: 50,000 hours at 70°C case temperature (some models have higher lifetime. Check lifetime curves in spec sheet)
- IP20-rated case with silicone-based potting
- Two 0-10 V dimming profiles are available:
  - Linear 0-10 V dimming: 10 V = 100%, 1 V = 10%, 0.1 V = 1%.
  - Non-linear 0-10 V dimming: 10 V to 8.1 V = 100%, 1 V to 0.8 V = 1%, < 0.8 V dim-to-off.
- Protections: output open load, over-current and short-circuit (hiccup), and over-temperature with auto recovery
- Conducted and radiated EMI: Compliant with FCC CFR Title 47 Part 15 Class B (120 Vac) and Class A (277 Vac)
- Complies with ENERGY STAR®, DLC (DesignLight Consortium®) & CA Title 24 technical requirements

Typical Applications

- Indoor & Outdoor
- Commercial lighting
- Architectural lighting
- Recessed lighting (downlights)
- Residential lighting
- Office Lighting
EVM SERIES  60 W - 120 W

Constant Current LED Drivers with Tri-Mode Dimming™ (TRIAC, ELV & 0-10 V)

<table>
<thead>

<td>1-100% (% of Iout)</td>
</tr>
</tbody>
</table>

Typical Application Diagram

Features
- Compatible with TRIAC (forward-phase or leading-edge), ELV (reverse-phase or trailing-edge) and 0-10 V dimmers
- Only 0-10 V dimming at 277 Vac
- Outdoor surge protection: 3 kV line to line / 6 kV line to earth
- Linear 0-10 V dimming transfer function: 10 V = 100%, 1 V = 10%, 0.1 V = 1%
- Optional non-linear 0-10 V dimming profile with dim-to-off
- Lifetime: 50,000 hours at 70°C case temperature
- 90°C maximum case hot spot temperature
- Class 2 power supply (most models)
- IP20-rated Bottom Leads with Studs metal case with silicone-based potting. Optional IP64 metal case with side leads
- Protections: output open load, over-current and short-circuit (hiccup), and over-temperature with auto recovery
- Conducted and radiated EMI: Compliant with FCC CFR Title 47 Part 15 Class B (120 Vac) and Class A (277 Vac)
- Complies with ENERGY STAR® luminaire specification and DLC (DesignLight Consortium®) technical requirements

Typical Applications
- High Bay Lights
- Tunnels & Street lighting
- Outdoor LED Lighting
- Suitable for driving high current COB LEDs such as Cree’s CXA3050/3070/3590 and Bridgelux’s Vero series, and modules such as Cree’s LMH2 6000/8000

1. Not class 2.

For additional options of output current and output voltage, contact your sales representative or send an email to: SaveEnergy@ERP-Power.com

2. The EVM090W-1700-48-N1B is specifically intended to drive the Cree LMH2 6000 module and exhibits a customized 0-10 V dimming transfer function.
ESP SERIES  40 W - 60 W
Constant Current LED Drivers with Tri-Mode Dimming™ (TRIAC, ELV & 0-10 V)

### Typical Application Diagram

![Diagram of ESP Series LED driver with Triac/ELV dimmer and LED connections.]

**Features**

- **NOT RECOMMENDED FOR NEW DESIGNS. FOR NEW DESIGNS, USE THE ESPT SERIES.**
- Compatible with TRIAC (forward-phase or leading-edge), ELV (reverse-phase or trailing-edge) and 0-10 V dimmers
- **ESPxxxW:** only 0-10 V dimming at 277 Vac
- **ESPxxxxE models:** only ELV dimming
- 90°C maximum case hot spot temperature (some models have higher lifetime. Check lifetime curves in spec sheet)
- Class 2 power supply
- Lifetime: 50,000 hours at 70°C case hot spot temperature
- IP66-rated case with silicone-based potting
- Protections: output open load, over-current and short-circuit (hiccup), and over-temperature with auto recovery
- Conducted and radiated EMI: Compliant with FCC CFR Title 47 Part 15 Class B (120 Vac) and Class A (277 Vac), and EN55015 (CISPR 15) at 220, 230, and 240 Vac
- Complies with ENERGY STAR®, DLC (DesignLight Consortium®) and CA Title 24 technical requirements

### Typical Applications

- Indoor & Outdoor
- Commercial lighting
- Architectural lighting
- Recessed lighting (downlights)
- Residential lighting
- Office Lighting

### Notes:

1. The ESP040W-0940-33-SS-F1 is specifically intended to drive the Cree LMH2 3000 Sunset module and exhibits a customized 0-10 V dimming transfer function. It will not work with any other LED or LED string.

2. The ESP driver case can also be mounted by using two metal clips, one on each short side. The ordering part number for the two metal clips is ESP-CLIPS. By default, the ESP driver is shipped without metal clips. When metal clips are required, add ESP-CLIPS to your order.

For additional options of output current and output voltage, contact your sales representative or send an email to: SaveEnergy@ERP-Power.com
ESPT SERIES  40 W - 60 W

Constant Current LED Drivers with Tri-Mode Dimming™ (TRIAC, ELV & 0-10 V)

Nominal Input Voltage | Max. Output Power | Output Voltage | Output Current | Efficiency | Max. Case Temperature | THD | Power Factor | Dimming Method | Dimming Range | Startup Time |
---|---|---|---|---|---|---|---|---|---|---|
120 & 277 Vac | 60 W | 24 to 56 Vdc | 700 mA to 1.4 A | up to 87% typical | 90°C (measured at the hot spot) | < 20% | > 0.9 | Forward-Phase, Reverse-Phase, & 0-10 V | 1-100% (% of Iout) | 400 ms |

Typical Application Diagram

1. ESPT models with the "-Z1" suffix exhibit a non-linear 0-10 V dimming profile with dim-to-off: 10 V to 8.1 V = 100%, 1 V to 0.8 V = 1%, < 0.8 V dim-to-off.

2. The ESPT driver case must be mounted by using a minimum of two metal clips. By default, the ESPT driver is shipped with 2 metal clips. Additional metal clips can be ordered with the following part numbers:
   - ESPT-CLIPS-100: bag of 100 clips
   - ESPT-CLIPS-1k: bag of 1000 clips

For additional options of output current and output voltage, contact your sales representative or send an email to: SaveEnergy@ERP-Power.com

Features

- Same features as the ESP series but with a thermally-enhanced plastic case
- Compatible with TRIAC (forward-phase or leading-edge), ELV (reverse-phase or trailing-edge) and 0-10 V dimmers
- Only 0-10 V dimming at 277 Vac
- 90°C maximum case hot spot temperature
- Class 2 power supply
- Lifetime: 50,000 hours at 70°C case hot spot temperature (some models have higher lifetime. Check lifetime curves in spec sheet)
- IP66-rated case with silicone-based potting
- Two 0-10 V dimming profiles are available:
  - Linear 0-10 V dimming: 10 V = 100%, 1 V = 10%, 0.1 V = 1%.
  - Non-linear 0-10 V dimming: 10 V to 8.1 V = 100%, 1 V to 0.8 V = 1%, < 0.8 V dim-to-off.
- Protections: output open load, over-current and short-circuit (hiccup), and over-temperature with auto recovery
- Conducted and radiated EMI: Compliant with FCC CFR Title 47 Part 15 Class B (120 Vac) and Class A (277 Vac)
- Complies with ENERGY STAR®, DLC (DesignLight Consortium®) & CA Title 24 technical requirements

Typical Applications

- Indoor & Outdoor
- Commercial lighting
- Architectural lighting
- Recessed lighting (downlights)
- Residential lighting
- Office Lighting

Features
• Compatible with TRIAC (forward-phase or leading-edge) / ELV (reverse-phase or trailing-edge) and 0-10 V dimmers
• Only 0-10 V dimming at 277 Vac
• 12 V / 100 mA auxiliary output
• IP66-rated case with silicone-based potting
• 90°C maximum case hot spot temperature
• Protections: output open load, short-circuit (latch-off), and over-temperature with auto recovery
• Conducted and radiated EMI: Compliant with FCC CFR Title 15 Part 15 Class A at 120 Vac & 277 Vac
• Complies with ENERGY STAR® luminaire specification and DLC (DesignLight Consortium®) technical requirements

For additional options of output current and output voltage, contact your sales representative or send an email to: SaveEnergy@ERP-Power.com
TLM SERIES  90 W - 160 W
Tri-Mode Dimming™ (TRIAC, ELV & 0-10 V)
High Power, Constant Current LED Drivers
with 0.01-100% Dimming Range and 12 V / 100 mA Auxiliary Output

---|---|---|---|---|---|---|---|---|---
120 & 277 Vac | 160 W | 30 to 85 Vdc | 1.8 A to 2.1 A | up to 90% typical | 90°C (measured at the hot spot) | < 20% | > 0.9 | Forward-Phase, Reverse-Phase, & 0-10 V | 0.01-100% (% of Iout)

**Features**

- Dimming range: 0.01-100% with ETC, Leprecon and Elation stage lighting AC phase dimmers
- 12 V / 100 mA auxiliary output to power external fan, motion or ambient light sensor, or wireless module
- Only 0-10 V dimming at 277 Vac
- Conducted and radiated EMI: Compliant with FCC CFR Title 47 Part 15 Class A at 120 Vac & 277 Vac
- IP66-rated case with silicone-based potting
- 90°C maximum case hot spot temperature
- Complies with ENERGY STAR® luminaire specification and DLC (DesignLight Consortium®) technical requirements

ERP Part Number | Nominal Input Voltage (Vac) | Iout (A) | Max. Output Power (W) | Vout Min. (Vdc) | Vout Max. (Vdc)
---|---|---|---|---|---
TLM90W: 81 to 90 W | 120 & 277 | 2.1 | 88.2 | 30 | 42
TLM160W: 151 to 160 W | 120 & 277 | 1.8 | 153.0 | 68 | 85

For additional options of output current and output voltage, contact your sales representative or send an email to: SaveEnergy@ERP-Power.com

Features
- Non-linear 0-10 V dimming profile with dim-to-off (10 V to 9.1 V = 100%, 1.5 V to 0.6 V = 1%, < 0.6 V = dim-to-off)
- Auxiliary output 12 V / 100 mA
- Dual output voltage range
- UL Class P
- IP66-rated case with silicone-based potting
- Surge protection:
  - Combination wave IEC61000-4-5: 4 kV line to line / 4 kV line to earth (higher surge is available upon request)
  - 2.5 kV ring wave: ANSI/IEEE c62.41.1-2002 & c62.41.2-2002 category A
  - 90°C maximum case hot spot temperature
- Complies with ENERGY STAR® luminaire specification and DLC (DesignLight Consortium®) technical requirements

Typical Applications
- Street lights, Area lights
- Industrial high-bay lights
- Horticulture grow lights

</table>

**Typical Application Diagram**

- **ERP Part Number**: CDB260W
- **Nominal Input Voltage (Vac)**: 120 & 277
- **Max. Output Power (W)**: 260.0
- **Iout 1 (mA)**: 430 to 860
- **Vout 1 (Vdc)**: 234 to 300
- **Iout 2 (mA)**: 325 to 650
- **Vout 2 (Vdc)**: 312 to 400

1. To order the antenna option “Wire whip antenna”, add the suffix “-W”. Example: CDB260W-0860-400-W.
2. To order the antenna option “Removable external antenna connected to RPSMA connector”, add the suffix “-R”. Example: CDB260W-0860-400-R

For additional options of output current and output voltage, contact your sales representative or send an email to: SaveEnergy@ERP-Power.com

**Features**
- Non-linear 0-10 V dimming profile with dim-to-off
- Auxiliary output 12 V / 100 mA
- IP66-rated case with silicone-based potting
- UL Class P
- Outdoor Surge protection:
  - IEC61000-4-6: 4 kV line to line / 4 kV line to earth
  - 2.5 kV ring wave: ANSI/IEEE c62.41.1-2002 & c62.41.2-2002 category A
- Conducted and radiated EMI: Compliant with FCC CFR Title 47 Part 15 Class A at 120 Vac & 277 Vac
- Lifetime: 50,000 hours @ Tc = 70°C
- 90°C maximum case hot spot temperature
- Complies with ENERGY STAR® luminaire specification and DLC (DesignLight Consortium®) technical requirements

**Communication**
- Bi-directional (dimming up and down and data log read)
- Bluetooth Mesh with wire whip antenna and external removable antenna

**Avi-on Bluetooth Mesh Solution**
- Wireless lighting controls with simple set-up that anyone can use
- Pre-integrated Bluetooth Smart + CSRmesh module enables brands to create multi-way controls and switching without additional wiring; no central gateway required
- Utility grade, secure, reliable mobile app & software
- Dimming, grouping, many users, schedules, timers
- Virtually unlimited range with mesh
- Download for free, additional services available
- Compatible with large ecosystem of products from major brands
- Avi-on battery-powered movable dimming switches available to complete the turnkey solution

**Typical Applications**
- Outdoor & Indoor
- Horticulture grow lights
- Street lights, Area lights
- Industrial high-bay lights
VLM60/40 SERIES 40 W - 60 W
Efficient, Compact, Non-Dimmable

Typical Application Diagram

- **VLM60/40 Series**
  - + LEDs
  - - LEDs
  - Models with Flying Leads, Aluminum Case (VLMXXW Models)
    - L 130 x W 19.65 x H 19.8 mm
    - (L 5.12 x W 0.77 x H 0.78 in.)
  - Models with “-S” Suffix
    - Bottom Leads with Studs, Aluminum Case
    - L 130 x W 19.65 x H 23.85 mm
    - (L 5.12 x W 0.77 x H 0.94 in.)
  - Models with “-T” Suffix (Terminal Blocks)
    - Aluminum case
    - L 183.2 x W 19.9 x H 19.85 mm
    - (L 7.12 x W 0.78 x H 0.78 in.)

Features
- Very high power density of 20 W/in³
- Class 2 power supply
- Class II power supply per IEC 61347
- UL Class P
- IP20-rated case with silicone-based potting
- 90°C maximum case hot spot temperature
- Lifetime: 50,000 hours min. at 70°C case temperature
- Complies with ENERGY STAR®, DLC (DesignLight Consortium®) and CA Title 24 technical requirements
- Worldwide safety approvals
- Additional safety approvals when using the optional strain reliefs for models with “-T” suffix

Typical Applications
- Strip lights
- Linear lighting
- Pendant lights
- Cove Lights

1. Strain reliefs for “-T” models can be ordered using part number SR1.

Suffix for the different mounting options:
- NO suffix: side leads
- “-T”: Terminal blocks
- “-S”: Bottom lead exit with studs

JVLM SERIES  60 W - 96 W
Efficient, Compact, Constant Voltage
Class 2 LED Drivers in a Junction Box

--- | --- | --- | --- | --- | --- | --- | ---
120 & 277 Vac | 96 W | 12, 24, 48 Vdc | 5, 4, 2 A | up to 92% typical | 90°C (measured at the hot spot) | < 20% | > 0.9

Typical Application Diagram

![Typical Application Diagram](image)

Dimensions
L 207.2 x W 75.4 x H 33 mm
(L 8.16 x W 2.97 x H 1.30 in.)

Features
- Low profile, rugged steel enclosure designed for use with our Constant Voltage VLM series
- JVLM is Plenum-rated, so it can go in air handling spaces. (In building construction, the plenum is the space that is used for air circulation in heating and air conditioning systems, typically between the structural ceiling and the suspended ceiling or under a raised floor).
- Designed for contractor installation:
  - UL listed
  - Separation of low-voltage wiring and high-voltage wiring
  - 4 mounting holes for surface mounting
  - 4 knockout holes for low-voltage wiring and 4 knockout holes for high-voltage wiring enable maximum wiring flexibility
- Same electrical features as the VLM series
- IP20-rated case
- Patent protected

![JVLM Driver Included](image)

Typical Applications
- Strip lights
- Linear lighting
- Pendant lights
- Cove Lights

Models contain the VLM LED Driver in the aluminum case with flying leads.

For additional options of output current and output voltage, contact your sales representative or send an email to: SaveEnergy@ERP-Power.com

![ERP Part Number](image)
VZM SERIES 60 W - 90 W

Efficient, Compact, Constant Voltage, Class 2 / Class II
LED Drivers with 0-10 V Dimming

Features

- Class 2 power supply
- Class II power supply per IEC61347
- UL Class P
- Ripple ≤ 5% @ 20% & 100% load
- Constant voltage mode with over-current protection
- IP20-rated case with silicone-based potting
- 90°C maximum case hot spot temperature
- Lifetime: 5 years minimum at 70°C case temperature
- EMI: Compliant with FCC CFR Title 47 Part 15 Class B at 120 V ac & Class A at 277 Vac
- Surge protection:
  - IEC61000-4-5: 2 kV line to line / 2 kV line to earth
  - 2.5 kV ring wave: ANSI/IEEE c62.41.1-2002 & c62.41.2-2002 category A
- Complies with ENERGY STAR®, DLC (DesignLight Consortium©) and CA Title 24 technical requirements

NFC Programming

- Programmable output voltage for optimal dimming range
- Fully programmable 0-10V dimming profile with dim-to-off

Typical Application Diagram

For additional options of output current and output voltage, contact your sales representative or send an email to: SaveEnergy@ERP-Power.com

100 W: Metal Case & Metal Wall Plate
40 W & 60 W: Plastic Case & Metal Wall Plate

**Features**

- LED Driver + Dimmer in one physical unit
- Simplifies LED installation by eliminating compatibility issues between driver and dimmer
- Fits in a standard recessed electrical box (gang box)
- 100% - 1% smooth dimming
- Single pole preset dimmer with on/off push switch
- Adjustable voltage output dial to address voltage drop
- Includes voltage barrier partition to install high and low voltage circuit in same gang box
- No derating required when ganging units
- Power failure memory: If power is interrupted, xDrive will return to the setting prior to interruption.
- The Glossy White color is the default color for the face plate and the trim plate. Other colors (Glossy Light Almond, Glossy Dark Brown, and Glossy Black) are available but sold separately

1. For each model, the default output current setting is the MINIMUM current. For example: the default output current setting for the PTB30W-0700-42 is 350 mA.
2. Please order the programming cable using the part number NFC_WAND.
For additional options of output current and output voltage, contact your sales representative or send an email to: SaveEnergy@ERP-Power.com

**Features**
- UL Class P and Class 2 power supply
- Lifetime: 50,000 hours @ Tc = 75°C
- 90°C maximum case hot spot temperature
- IP20-rated case with silicone-based potting
- Surge protection:
  - IEC61000-4-5: 2 kV line to line / 2 kV line to earth
  - 2.5 kV ring wave: ANSI/IEEE c62.41.1-2002 & c62.41.2-2002 category A
- Complies with ENERGY STAR®, DLC (DesignLight Consortium®) and CA Title 24 technical requirements

**Typical Applications**
- Commercial lighting
- Architectural lighting
- Residential lighting
- Indoor lighting

**Typical Application Diagram**

**Programming**
- Current: 100% to 50% in each voltage range
- Fully programmable and selectable 0-10V dimming profiles: non-linear with dim-to-off, logarithmic, non-linear without dim-to-off, linear, etc.
- Programmable conduction angles with turn-on and turn-off for TRIAC and ELV
- Data log read: SKU, S/N, lot code, hours of operation, FW rev., power cycles
PKB SERIES 30 W - 65 W
Programmable, Constant Current Class 2 LED Drivers with 0-10 V Dimming

Typical Application Diagram

Terminal Blocks, Aluminum Case
L 216.1 x W 29.4 x H 22.4 mm
(L 8.51 x W 1.16 x H 0.88 in.)

Features
- UL Class P
- Class 2 output
- Standby power consumption: 1.4 W @ 120; 1.7 W @ 277 Vac
- Lifetime: 5 years @ T<sub>c</sub> ≤ XX°C
- 20% maximum ripple current
- 90°C maximum case hot spot temperature
- Surge protection:
  - IEC61000-4-5: 2 kV line to line / 2 kV line to earth
  - 2.5 kV ring wave: ANSI/IEEE c62.41.1-2002 & c62.41.2-2002 category A
- Complies with ENERGY STAR®, DLC (DesignLight Consortium®) and CA Title 24 technical requirements

Typical Applications
- Commercial lighting
- Architectural lighting
- Residential lighting
- Indoor lighting

Lumenetix-araya recreates and controls light that emulates the spectral quality of daylight. And, Lumenetix-araya accesses a rich gamut of pastels and saturated colors to unveil new design frontiers.
THE LUMENETIX BREAKTHROUGH

The replication and control of the range and beauty of daylight while ensuring color consistency from fixture-to-fixture over life, whether you use Tunable Color, Tunable White, LED Dimming or Halogen Dimming light paths. After all, Color is How You Light It™.

HIGHEST QUALITY TUNABLE WHITE LIGHT: Lumenetix-araya recreates daylight by mixing LED colors of the rainbow – red, amber, mint, cyan and blue, plus green if an expanded gamut option with saturated green is desired – to deliver full spectrum light from 1650K to 8000K at 90+ CRI.

NATURAL DAYLIGHT EMULATION from sunrise through sunset – the light tracks the CIE Blackbody locus from 1650 - 4500K and then smoothly transitions to the Daylight Curve to 8000K.

FULL COLOR ACCESS to millions of colors within the gamut area created by the LEDs in the CIE color space, enabling tailored light from shades of pastels to saturates.

E-FLICKER FREE LED DIMMING TO 0.1%* is enabled by a proprietary hybrid technology that maintains color consistency while dimming.

TRADITIONAL DIMMING RECREATED by emulating a halogen lamp from 3050K at full brightness to 1800K at 1%.

COLOR CONSISTENCY OF LESS THAN 2 MACADAM ELLIPSE OVER LIFE from fixture-tofixture as verified by independent LM-84 testing – a corrective closed loop system and a predictive feedback algorithm resolve thermal droop and lumen depreciation for each LED.
**THE DATA AND CONTROLS TELL THE STORY**

**TYPICAL SPD CURVE**

Color Vector Graphic

Color Saturation Graphic

Rf = 96; Rg = 102; CRI Ra = 97

For additional color and performance information, please refer to www.erp-power.com.

**COMMISSION AND CONTROL EFFORTLESSLY**

**DIGITAL** - Lumenetix-araya is compatible with all industry-leading digital control systems.

**ANALOG** - Two 0-10 V lines can be used to control Dimming and CCT independently, or program Scenes — in any combination of Dimming, CCT, Saturation and Hue — and recall them with five 0-10 V presets or the Lumenetix-araya iOS App.

**OS** - Used in conjunction with Digital or Analog controls, each module can be wirelessly commissioned and then the radio turns off for enhanced security.
